

COMBAT SUPPORT SYSTEMS

Product Manager, Combat Support Equipment (PdM CSE)

AMAL 660, Marine Corps Special Operations Command (MARSOC)

REQUIREMENT

Statement of Need dated 22 May 2008.

OVERVIEW

AMAL 660 contains the medical equipment and supplies necessary to support one Special Operations Independent Duty Corpsman (Navy Enlisted Classification (NEC) 8403), and/or one Special Amphibious Corpsman (NEC 8425), and/or one Special Amphibious Reconnaissance Corpsman (NEC 8427) in austere environments.

FEATURES

AMAL 660 provides initial resuscitative, trauma life support, and stabilizing care for fourteen patients with major injuries before evacuation to higher levels of medical care. In addition, AMAL 660 provides life, limb, and eyesight saving equipment and supplies to treat host nation personnel (civilian and military) as well as, the equipment and supplies necessary for environmental, and force health hazard assessment and mitigation.
